August 2020

Dear Parent/Carer

Local Authority update on school transport for September

As stated in my letter to all parents on 17 July, where possible, all children in September should walk, cycle or travel to school by car even if they are normally entitled to school transport.

If there is no other option for your child to travel to school, public service and dedicated school buses will continue to operate. If your child must come to school in September using either public service or dedicated school transport, it is **essential that you read** important information, accessed via the link below, which was released by the Local Authority on 20 August. This includes information on **accessing school transport, social distancing and use of face coverings** (which are now required).

<https://www.lincolnshire.gov.uk/school-college-transport/covid-19-information-school-transport/1>

Please can you share this information with your child if they must use school or public transport in September.

Thank you.

Yours faithfully

Jonathan Knowler
Headteacher
